

Newson Health's Complaint Management Process

Receiving and acting on a patient complaint

The purpose of this policy is for patients who use services, or others acting on their behalf, to be assured that:

- their comments and feedback are listened to and acted on effectively
- they will not be discriminated against for raising a complaint.

The aim of this policy and accompanying procedures is that a complaint raised made by patients or their relatives is listened to and acted upon effectively by:

- having systems in place to deal with comments and complaints, including providing patients who use our services with information about that system.
- supporting patients who use our services and their nominated representatives to make comments or complaints.
- considering fully, responding appropriately and resolving, where possible, any comments or points of feedback.

Newson Health Limited has established processes for dealing with the complaints, irrespective of its nature, which complies with the [Health and Social Care Act 2008](#).

Our ultimate objective is to give our patients the highest possible standard of service and we try to deal with any complaint as quickly as possible.

Patients are asked that in the event of any feedback or matter they wish to discuss that this is forwarded to the clinic management team by emailing info@newsonhealth.co.uk.

We shall acknowledge complaints within 2 working days and aim to have considered the complaint within 7 working days of the date when it was raised.

We shall offer an explanation, or a meeting as appropriate. If there are any delays in this process we will keep the patient informed.

When we consider a complaint, we shall aim to:

- Find out what happened and what went wrong
- Make it possible for the complainant to discuss the problem with those concerned
- Make sure the complainant receives an apology where appropriate
- Identify what we can do to make sure the problem doesn't happen again

At the end of the investigation the response and resolution will be discussed with the patient in detail, either in person or in writing.

Complaining on behalf of someone else

If the complaint is received on behalf of someone else the rules of patient confidentiality will be kept.

A note signed by the person concerned will be needed unless they are incapable (because of illness) of providing this to allow the issue to be investigated.

Our Newson Health complaint process has 3 key stages:

1. Local resolution
2. Appeals to senior management
3. Appeals to CEO/Clinical Directors

Stage 1- Local resolution

All complaints, whether written or verbal, are documented either by the member of staff receiving the complaint or the operations management team. If the member of staff is not capable of resolving the complaint, written details are passed onto the operations management team. Staff will always escalate a complaint if it meets the criteria set by the Clinical Directors.

Stage 2- Appeal to senior management

The preferred outcome is local resolution of a complaint however if the complainant is dissatisfied after the initial response, they may direct their complaint to the senior management team. If the complainant is still not satisfied with the stage 2 responses, they may then direct their complaint to the Clinical Directors or CEO of Newson Health Limited.

Stage 3- Appeal to Clinical Directors or CEO

The Clinical Directors or CEO will review all aspects of the complaint and respond by either confirming the findings and actions taken in stages 1 and 2 of the process, or they may reach a separate conclusion as to the appropriate outcome.

Payments and refunds

In some cases, it may be appropriate to waive fees or offer a refund. This must be authorised by the management team. If a complaint indicates their intent to start litigation, then a compensation payment is not appropriate.

Complaints of a clinical nature

The management team will inform the Clinical Directors of a clinical or serious complaint made against a Newson Health Clinician by a patient. Similarly, the Newson Health Clinician should always inform the management team and Clinical Directors of any complaints made against them.

If the complaint is about the management team or administrative staff, then the manager must follow the procedure and inform the Clinical Directors or CEO.
